Summary

Dedicated student currently pursuing a B.Tech in Information Technology. Strong problem solving skills and a proactive approach to learning, demonstrated through academic projects and coursework. Open to internships, part-time roles, and opportunities for hands-on learning.

Technical Skills

- **Programming Languages:** C, C++, Python, Java, JavaScript
- **Web Technologies:** HTML, CSS
- **Cloud & DevOps:** AWS Services (EC2, S3, IAM, VPC)
- **Developer Tools:** VS Code, Sublime Text
- **Operating Systems:** Windows, Linux (Basics)

Education

Aditya College Of Engineering And Technology , B.Tech in Information Technology	Sept 2022 – May 2026
• GPA: 8.16/10.00	
Sri Nannaraju Junior College , Intermediate in MPC	June 2020 – May 2022
• Marks: 900/1000	
Little Flower EM High School , 10th class in SSC	June 2019 – May 2020
• Marks: 557/600	

Experience

Aws Cloud Trainee , Innovative Origin	July 2024 – Dec 2024
• Gained hands-on experience with 15+ AWS services, including EC2, S3, IAM, VPC, RDS, and DynamoDB.	
• Configured and managed IAM roles and policies to enhance cloud security.	
• Implemented VPC networking with public/private subnets for secure cloud architecture.	

Projects

Cloud Infrastructure Deployment on AWS	Github
• Designed and deployed a scalable cloud infrastructure using AWS services such as EC2, S3, IAM, and VPC.	
• Implemented secure VPC networking with public/private subnets and configured IAM roles and policies for enhanced access control and security.	
Weather Website	Demo Github
• Designed and developed a responsive weather application that retrieves real-time weather data using an API.	
• Integrated features such as location-based weather updates, temperature conversions, and an intuitive user interface to enhance user experience.	
Portfolio Website	
• Designed a responsive portfolio website, ensuring seamless viewing and functionality across both mobile and laptop devices using HTML and CSS.	
• Built a clean, user-friendly layout with modern design principles, including grid and flexbox for a consistent and intuitive user experience across devices.	
C++ Game Development Projects	
• Developed multiple console-based games, including Tic Tac Toe, Rock-Paper-Scissors, Guess a Number, and	

Connect Four, using C++.

- Implemented Object-Oriented Programming (OOP) principles and data structures to enhance game logic, scalability, and performance.
- Integrated random number generation for dynamic gameplay and input validation techniques to improve user experience and error handling.

Achievements

HackerRank

Profile

- Earned 5-star ratings in C++ and Python, 4-star in C, and 3-star in Problem Solving and Java on HackerRank, demonstrating strong programming and problem-solving skills.

LeetCode

Profile

- Solved 220+ problems, focusing on data structures and algorithms to enhance coding efficiency.

GeeksforGeeks

Profile

- Tackled 100+ coding challenges, strengthening problem-solving and analytical skills.

CodeChef

Profile

- Solved 175+ competitive programming problems, improving algorithmic thinking and coding speed.

Certifications

- IT Specialist – Python & Java.
- Red Hat Certified System Administrator (RHCSA) – RedHat.
- Advanced Programming in C++ – Cisco Networking Academy.
- SQL (Basic) Certification – HackerRank.
